# PERFO

Interlocking ground reinforcement system  
Ideal for tracks, green field parking, campsites

- § durable, all weather surface which prevents rutting
- § can normally be rolled into unprepared soft grass surface
- § secure interlocking tiles prevent standing edges
- § textured surface for safe grip
- § excellent load bearing and weight distribution properties
- § can withstand loads of up to 40 tonnes/m<sup>2</sup> once laid
- § grass grows back through the tiles in a short time, preserving the character of the environment
- § tiles allow water to pass through them. Natural drainage maintained
- § planning permission not normally required
- § no special tooling or skills required for installation
- § easy to install yourself in a short time
- § tiles can be removed later, if required
- § no splintering or risk of injury
- § low cost when compared to alternative options

Easy to install in  
3 simple steps

Transforms soft ground  
into a stable base

Grass grows back  
through the tiles
